

GNS Group at KONTEC 2023 in Dresden

2023-08-25

At KONTEC, the international symposium on the conditioning of radioactive operational and decommissioning waste, the entire GNS Group will be presenting itself for the first time with our now three subsidiaries EWB, H&B and WTI on a centrally located booth from 30 August to 01 September.

As a platinum sponsor we are particularly pleased to support KONTEC as the flagship event of our industries. In five presentations and on four posters we will show our joint expertise in decommissioning and dismantling and thus underline our motto, which is not only valid at KONTEC: Excellence for Nuclear.

Will we see you in Dresden?
