Package Design Approval for CASTOR® MTR3

2019-01-24

On 17 January 2019, the German Federal Office for the Safety of Nuclear Waste Management (Bundesamt für kerntechnische Entsorgungssicherheit/BfE) issued the package design approval certificate for the transport and storage cask CASTOR® MTR3 as type B(U)F packaging. The cask was developed by GNS especially for spent fuel elements from research reactors.
